Representatives from Non Governmental Organizations (NGOs) from Malaysia, the Philippines, Singapur, Thailand, East Timor, and West Papua will give testimonies of violations of human rights in their home countries.
Moreover European politicians will discuss the EEC's responsibility for the violation of human rights in the ASEAN countries as well as perspectives of a cooperation on an equal footing.

At 9.30 AM the participants of the hearing will give a press conference.

As the shady sides of ASEAN wont be a topic at the foreign ministers meeting, we would like to invite you especially to the press conference to supply you with those informations.
